Re: Notice of Service / In the Matter of Petition for Water Right Administration and Request to Designate the Eastern Snake Plain Aquifer as a Ground Water Management Area

Dear Director Dreher:

This letter is being sent on behalf of the members of the Surface Water Coalition.¹ On January 14, 2005 the Coalition filed a *Petition for Water Right Administration and Designation of the Eastern Snake Plain Aquifer as a Ground Water Management Area* requesting administration of junior priority ground water rights within the boundaries of the ESPA but not within organized water districts. The *Petition* was not served on any ground water right holders at that time since the water right numbers and the names and addresses of the ground water right holders were not then known by the Coalition.

Since then, the Coalition has obtained a list of ground water rights, including the names and addresses of the holders of those rights, with the assistance of Department personnel. This letter is notice of service upon those ground water right holders included in that list. The Coalition forwarded a copy of the *Petition* along with a cover letter to each ground water right holder on the list. See Exhibit A. The Coalition accomplished service by U.S. Mail on March 30, 2005 through AutoSort, 7286 Airport Court, Boise, Idaho 83709; (208) 375-4411.

It is the Coalition's understanding that not all ground water rights within the ESPA (but outside of organized water districts) are included in the Department's data from which the list

RECEIVED
APR - 1 2005
DEPARTMENT OF
WATER RESOURCES

¹ The coalition consists of A & B Irrigation District, American Falls Reservoir District #2, Burley Irrigation District, Milner Irrigation District, Minidoka Irrigation District, North Side Canal Company, and Twin Falls Company.

Director Karl J. Dreher

March 31, 2005

Page - 2

was produced. It is the Coalition's understanding that the Department's information is constantly being updated, but that the list may contain a margin of error of up to five percent (5%). Therefore, the Coalition does not represent that the attached list contains all of the relevant ground water rights that may be subject to the *Petition*. As has been the Department's practice, and as provided by the conjunctive management rules (IDAPA 37.03.11.30.02), the Coalition presumes that the Department will give "such general notice by publication or news release" to advise those ground water users within the petitioned area of the matter who have not been served with the *Petition*.

After the time for an answer has expired the Coalition would request an immediate status conference with the active participants in the contested case. Please contact me at (208) 733-0700 if you have any questions.

Sincerely,

BARKER ROSHOLT & SIMPSON LLP

Re: Notice of Filing of Petition for Water Right Administration

Dear Ground Water Right Holder:

On January 14, 2005, the seven entities listed above (hereinafter collectively referred to as the “Surface Water Coalition”) filed a *Petition for Water Right Administration and Designation of the Eastern Snake Plain Aquifer as a Ground Water Management Area (“Petition”)*. The *Petition*, a copy of which is attached to this letter¹, requests the Director to administer junior priority ground water rights in order to deliver water to the Surface Water Coalition’s senior surface water rights. The *Petition* and the attached exhibits can be reviewed at IDWR’s offices located at (State) 322 E. Front St., Boise, Idaho 83720-0098; (Southern) 1341 Fillmore St., Suite 200, Twin Falls, Idaho 83301-3380; and (Eastern) 900 N. Skyline Dr., Suite A, Idaho Falls, Idaho 83402-6105.

The *Petition* is being served upon you since you are the holder of a junior priority ground water right located within the boundaries of the ESPA, but outside an organized water district (i.e. Water District No. 120 or 130). The Department’s rules require that you file a response to the *Petition* with the Department within twenty-one (21) days. IDAPA 37.01.01.270. Copies of responses should also be sent to the Coalition’s counsel at the addresses listed on the first page of the *Petition*, as well as to intervening parties.

¹ The *Petition* includes a number of exhibits and data that can be found at www.idwr.idaho.gov. The documents can be accessed at the reference entitled “Read the Documents Filed in the Surface Water Coalition Water Call”. The *Petition* and exhibits are listed as “Surface Water Coalition – Secondary Filing” January 14, 2005.

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF THE PETITION FOR ADMINISTRATION BY A & B IRRIGATION DISTRICT, AMERICAN FALLS RESERVOIR DISTRICT #2, BURLEY IRRIGATION DISTRICT, MILNER IRRIGATION DISTRICT, MINIDOKA IRRIGATION DISTRICT, NORTH SIDE CANAL COMPANY, and TWIN FALLS CANAL COMPANY))	PETITION FOR WATER RIGHT ADMINISTRATION AND DESIGNATION OF THE EASTERN SNAKE PLAIN AQUIFER AS A GROUND WATER MANAGEMENT AREA
---	---	---

COMES NOW, A & B Irrigation District, American Falls Reservoir District #2, Burley Irrigation District, Milner Irrigation District, Minidoka Irrigation District, North Side Canal Company, and Twin Falls Canal Company (hereinafter collectively referred to as "Petitioners"), pursuant to Rules 30 and 41 of the conjunctive management rules (IDAPA 37.03.11) and Rule 230 of the Department's rules of procedure (IDAPA 37.01.01), and hereby petitions the Director of the Idaho Department of Water Resources as follows:

BASIS FOR PETITION

1. Petitioner A & B Irrigation District is a duly organized irrigation district under the laws of the State of Idaho, with its principal place of business located at 414 11th St. in Rupert Idaho.

2. A & B Irrigation District holds the following irrigation and storage water rights to the Snake River: 01-14, 01-2060A, 01-2064F, 01-2068F. Water under these rights is diverted through a system of canals and laterals and is beneficially used for irrigation purposes.

3. Petitioner American Falls Reservoir District #2 is a duly organized irrigation district under the laws of the State of Idaho, with its principal place of business located at 112 S. Apple St. in Shoshone, Idaho.

4. American Falls Reservoir District #2 holds the following irrigation water right to the Snake River: 01-6. Water under this right is diverted through a system of canals and laterals and is beneficially used for irrigation purposes.

5. Petitioner Burley Irrigation District is a duly organized irrigation district under the laws of the State of Idaho, with its principal place of business located at 246 East 100 South in Burley, Idaho.

6. Burley Irrigation District holds the following irrigation and storage water rights to the Snake River: 01-7, 01-211B, 01-214B, 01-2064F, and 01-02068F. Water under these rights is diverted through a system of canals and laterals and is beneficially used for irrigation purposes.

7. Petitioner Milner Irrigation District is a duly organized irrigation district under the laws of the State of Idaho, with its principal place of business located at 5924 East 3610 North in Murtaugh, Idaho.

8. Milner Irrigation District holds the following irrigation and storage water rights to the Snake River: 01-9, 01-17, 01-2050, and 01-2064B. Water under these rights is diverted through a system of pumps, canals, and laterals and is beneficially used for irrigation purposes.

9. Petitioner Minidoka Irrigation District is a duly organized irrigation district under the laws of the State of Idaho, with its principal place of business located at 98 West 50 South in Rupert, Idaho.

10. Minidoka Irrigation District holds the following irrigation and storage water rights to the Snake River: 01-8, 01-4045A, 01-10187, 01-10188, 01-10189, 01-10190, 01-10191, 01-10192, 01-10193, 01-10194, 01-10195, and 01-10196. Water under

these rights is diverted through a system of canals and laterals and is beneficially used for irrigation purposes.

11. Petitioner North Side Canal Company is a non-profit Idaho corporation organized under the laws of the State of Idaho, with its principal place of business located at 921 N. Lincoln St. in Jerome, Idaho.

12. North Side Canal Company holds the following irrigation and storage water rights to the Snake River: 01-5, 01-16, 01-210A, 01-210B, 01-212, 01-213, 01-215, 01-220, 01-02064C, 01-10042B 01-10043A, 01-0045B, and 01-10053A. Water under these rights is diverted through a system of canals and laterals and is beneficially used for irrigation purposes.

13. Petitioner Twin Falls Canal Company is a non-profit Idaho corporation organized under the laws of the State of Idaho, with its principal place of business located at 357 6th Ave. West in Twin Falls, Idaho.

14. Twin Falls Canal Company holds the following irrigation and storage water rights to the Snake River: 01-4, 01-10, 01-209, 01-02064A, 01-10042A, 01-10043, and 01-10045A. Water under these rights is diverted through a system of canals and laterals and is beneficially used for irrigation purposes.

15. The United States Bureau of Reclamation (USBR) holds the following irrigation storage rights to the Snake River: 01-284, 01-2064, 01-4052, 01-10042, 01-10053, 01-4055, 01-10044, 01-10045, 01-2068, 01-4056, 01-4057, 01-10043. Water is stored under these rights at Jackson Lake, Palisades Reservoir, American Falls Reservoir, and Lake Walcott. Water stored under these rights accrues to the respective space of the members of the Coalition pursuant to contracts with the United States.

16. Data collected by the United States Bureau of Reclamation over the past six years indicates an approximate 30% reduction in reach gains to the Snake River between Blackfoot and Neeley, a loss of about 600,000 acre-feet. *See Exhibit A.* The recently recalibrated ESPA ground water model identifies ground water pumping as a major contributor to declines in the source of water fulfilling senior surface water rights. The ground water model demonstrates that pumping under junior groundwater rights results in an approximate steady state annual depletion of 1.1 million acre-feet to the Snake River between Shelley and Minidoka Dam. *See Snake River Plain Aquifer Model Scenario: Hydrologic Effects of Curtailment of Ground Water Pumping "Curtailment Scenario"* (October 2004, Idaho Water Resources Research Institute Technical Report 04-023) found at <http://www.if.uidaho.edu/~johnson/ifiwrri/projects.html>.

18. By reason of the diversion of water by junior ground water appropriators located within the Eastern Snake Plain Aquifer (ESPA), the Petitioners are suffering material injury as a result of depletions to spring flows and reach gains tributary to the Snake River, resulting in reduced volumes of water in the Snake River available for the Petitioners to divert under their water rights which would otherwise be available in the

absence of such depletions. Impacts have been occurring as a result of ground water depletions and reduced reach accruals for several years, resulting in material injury to the Petitioners' water rights. Curtailment of junior ground water rights must therefore occur over a period of time unless substantial aquifer recovery occurs as a result of artificial or natural recharge in excess of the present rate of groundwater depletions. Any and all water that is pumped under junior groundwater rights that would otherwise accrue to the Snake River to satisfy a senior surface water right, as demonstrated by the model, results in a "material injury" to the Petitioners' senior surface water rights.

19. As a result of reduced spring flows and reach gains caused by diversions under junior ground water rights, the Petitioners' diversions under senior natural flow water rights have been interfered with and curtailed. *See Exhibit B.* Similarly, Petitioners' senior storage water rights, including carry-over supplies, have also been interfered with and reduced by diversions under junior ground water rights. *See id.*

20. The names, addresses and description of the water rights of the ground water users who are causing material injury to the rights of the Petitioners is not now known by Petitioners.

21. The ESPA is an area of common ground water supply within which junior priority ground water rights must be regulated.

22. The ESPA is a ground water basin which may be approaching the conditions of a critical ground water area and the ground water supply is insufficient to meet the demands of Petitioners and other water rights within the ESPA, an area of common water supply. The Director previously recognized a portion of the ESPA was "approaching the conditions of a critical ground water area" by an order of August 3, 2001 designating the American Falls Ground Water Management Area.¹ Ground water supplies, including spring flows and tributary reach gains have continued to decline since 2001.

23. Petitioners have also filed a water right delivery call for administration of water rights in Water District No. 120 pursuant to Rule 40 of the conjunctive management rules thereby providing the Director and the Watermaster with the ability to immediately administer water rights within the district.

24. Petitioners reserve the right to supplement this petition with additional information as necessary.

¹ The Director later issued an order modifying the boundaries of the American Falls Ground Water Management Area on August 29, 2003. Petitioners Twin Falls Canal Company and North Side Canal Company challenged that order. The contested case regarding that matter has been stayed since April 2004.

PRAYER FOR RELIEF

WHERFORE, Petitioners request the following relief:

1. That the Director take such action as is necessary to insure the delivery of water to Petitioners' senior surface water rights, including administration of junior priority ground water rights located: 1) within the ESPA but that are not within organized water districts; and 2) within the American Falls Ground Water Management Area.
2. That the Director do all things reasonably necessary and appropriate to protect the people of the State of Idaho of depletion of ground water resources which have caused material injury to Petitioners.
3. That the Director designate the Eastern Snake Plain Aquifer as a ground water management area as provided by Section 42-233b, Idaho Code
4. That the Director otherwise supervise the allotment of water from the use of water from the ground water management area above described to insure the full utilization of the water rights of the Petitioners by the Petitioners for the benefit of lands within their respective irrigation projects.
5. For such other and further relief as deemed necessary.
